

LILIEN-CARRÉ WIESBADEN 2007 -The Lilien-Carré is located on the site of the former Wiesbaden main post office, in the direct vicinity of the historic main train station. An oval, two-storey retail centre with approximately 25,000 m² of sales, services, and restaurant space creates the focal point of the building complex. A brick cube dominates the Adolfsallee axis, which leads into the city centre. As the front building, it divides the shopping centre and the sloping Biebricher Allee from the adjoining row of office buildings, creating a separation between the Carré Terraces and the street.
